## Rob Boswell DVM is a 1985

graduate of the University of Florida's School of Veterinary Medicine. Dr. Boswell specializes in sports medicine and advanced diagnostic imaging geared towards the high performance equine athlete. Services offered include advanced ultrasonography, digital radiography, shockwave therapy, lameness and pre-purchase examinations as well as routine veterinary care.

## James Gilchrist APF career

in the hoof care industry began in 1978 when he met farrier Gene Hill of Marietta, Georgia. He studied farriery under Bud Beaston in Oklahoma and graduated from his school in 1980. He developed his farrier business in the North Atlanta area and shod there until he relocated to Wellington, Florida in 1999. The focus of his business has been in the show jumper and dressage industry as well as providing therapeutic farriery to his clients.

9 am - Lecture

Noon - Lunch

1 pm - Lecture Continues

Our 2014 Annual Clinic is sponsored by

### Topics to be discussed include:

#### VET / FARRIER RELATIONS

Throughout today's presentation, Dr. Boswell and James will talk about the benefits of having a positive ongoing dialogue between the two professions. They'll demonstrate the benefits of this dialogue by sharing actual case studies which have benefited both the horse and the horse owner.

#### RADIOGRAPH GUIDED TRIMS

Whether it be a new client or a horse which has been shod repeatedly by the farrier, Dr. Boswell and James will demonstrate how they use radiographs to adjust the trim.

#### LAMINITIS

Yes, it's been the buzzword in the farriery industry for many years, but our presenters will share with you some information which you'll be able to use in your farrier practice.

This clinic has been approved for 6 American & Canadian Associations of Professional Farriers (AAPF/CAPF) Continuing Education Credits. For more information visit their website - [www.ProfessionalFarriers.com](http://www.ProfessionalFarriers.com)
